A first round of betting occurs after the Hole Cards are dealt. All bets or raises must equal to 1 times the Blind Bet amount.
- 4. Flop Cards:**
After the Hole Bet, the first three "community" cards are revealed face up.
- 5. Flop Bet:**
A second round of betting occurs after the Flop Cards are revealed. All bets or raises must be equal to 1 times the Blind Bet amount. The player can also execute a "Limit-All In Bet" at his first opportunity to act in this round (see below).

SPECIAL FEATURES:

Limit-All In Bet:

CHIPS

The player has a chance to make a special bet (a "Limit-All In Bet") after the Flop Cards are revealed and it is the player's turn to act. The other three positions can either call or fold in response. The game will then play out automatically without any further betting or action. The amount that a player can bet when exercising the Limit-All In Bet is indicated in the box titled "Chips". This is equivalent to the maximum total remaining amount that the player could possibly bet in the limit game.

The "Limit-All In Bet" value can be adjusted by operator.

JP3:

The player wins a 'JP 3' bonus if the player has 3 Aces (between his hole and the community cards), regardless of whether he wins or loses the hand.

JP2:

The player wins a 'JP 2' bonus if the player has a full house with 3 Aces (between his hole and the community cards), regardless of whether he wins or loses the hand.

JP1:

The player wins a 'JP 1' bonus if the player holds 4 Aces (between his hole and the community cards), regardless of whether he wins or loses the hand.
